Access Statement

Sheriff Lodge is committed to the accessibility of its resources and services to all its guests with disabilities, although, at present Sheriff Lodge is not accessible to those with mobility impairment that involves the use of a wheelchair.

We will work with the users of our services and other service providers to provide reasonable accommodation where possible. If you have a question about the accessibility of any of our services or resources, please contact Ziz

We are making as many changes as possible to Sheriff Lodge to enable us to cater for guests that suffer from disabilities.

The very nature and layout of house make it impossible for us to provide wheelchair access to anywhere else other than the ground floor (when we provide meeting, conference and celebration facilities).

This does not and has not stopped us from examining in detail just what changes and enhancements necessary to make everyone's visit as enjoyable as possible. Don't forget though – you need to let us know your needs.

Sight Impairment

Our breakfast menu is in large print and we have all our guest information available in large print as well. If larger print is required please let me know.

Hearing Impairment

Safety of our guests is of paramount importance to us and we are examining ways, and equipment, to assist us in raising the alarm. A strobe alarm is being fitted shortly.

If you would like to hear this website read out through your speakers then click here to visit the [Natural Voice Reader](#) website where you can download a free text to speech reader that will read the text on these pages

Arthritis Sufferers

We have invested in sure grip cutlery to assist those that may have grip problems.

Mobility Impairment

We have fitted all of our bathrooms with a grabrail over the bath. A removable seat for use under the shower, and steps to assist in getting in and out of the bath are also available.

Further Improvements

We are always on the lookout for innovations that can help in improving any aspect of Sheriff Lodge. If you have any ideas that could help us in this then please don't hesitate to call.

All the detail about Sheriff Lodge

Introduction

This access statement is designed to give as much information as possible to those with disabilities to assess the suitability of Sheriff Lodge as a destination. If you feel there is further information that could be included, then please let us know and we will include it.

All doorways in Sheriff Lodge are of a standard width (80cm)

Pre-Arrival

- All guests can access our website which has a link on its homepage to a Large Print version. In addition, a link can be found to a website that will read the content of www.sherifflodge.co.uk out loud.
- All guests are asked whether they have any special needs and whether they have any special dietary requirements. This is done via the telephone and through the use of e-mail.

Arrival & Car Parking Facilities

Our car park is off-road, and the surface is limestone chippings. Access to the front door is via four steps which have a handrail and then two further steps on the approach to the door. The final small step is over the threshold into Sheriff Lodge. This access is illuminated from the bottom of the four steps to the front door by the use of low level lighting. Alternative access to the front door can be made via the gate into the garden accessed from Dimple Road. The surface from the gate is uneven sandstone. The gate is approximately 15 metres from the front door.

Main Entrance & Reception

The main entrance door is protected by a porch and the access to the reception, once inside, is over smooth, solid, dark oak, wood flooring. The distance from the door to the reception is approximately 6 metres. There are no steps along this route.

Public Areas – General (Internal)

The main public area – The Drawing Room – contains 5 tables, at which guests have their breakfast. These are configured in a restaurant style and have two chairs at each. The floor is covered in a green coloured carpet. In addition, there is an area for guests to relax. This is situated at the left-hand side of the Drawing Room as you enter and contains two sofas – one seating three and the other two. In addition, there are two occasional armchairs. Lighting in this room is from two large chandeliers, each with 6 bulbs. Alternative lighting is available from three table/standard lamps placed in the corners of the room. There is access to two directional floor standing lamps if required for those with eyesight impairment, to aid reading. A breakfast is also provided in this room and the layout of it remains the same each day. Natural light floods the room from two floor-to-ceiling bay windows and four smaller ones.

Public Areas – WC

- Access to the toilets on the ground floor is only usually made by those using Sheriff Lodge for meetings etc. They can be accessed via the owner's lounge. Access is down a single step (18cm), across the lounge, and up a second single step (18cm). There is a toilet accessed in this way. The doorways are of a standard width (80cm).

Bedrooms

- Each of the five rooms at Sheriff Lodge is accessed via a staircase.
- The first floor is reached by climbing 15 stairs, each of which is 18cm high. The Mousehole is the first room on the first floor and consists of twin beds that are seven feet long by three feet wide. In addition to the beds there is an armchair. The room is provided with a remote-controlled colour television. There is also an alarm clock radio on one of the two bedside tables. In addition, there is a dressing table with a mirror attached. This room has an en-suite shower cubicle, the floor of which is smooth light oak. The floor covering in the main part of the room is carpet. The facilities in this room are duplicated in The Loft (second floor). The only difference with The Loft room is that it contains a double bed. This bed is also seven feet long and has a foot board.
- The second room on the first floor in The Dray and contains the same facilities as The Mousehole but The Dray contains a bath rather than a shower cubicle.
- The second floor is accessed via 14 stairs which are each 20cm high. The second floor contains two rooms, The Loft and The Nest. The Loft has the same facilities as the Mousehole and the Nest has the same facilities as the Dray.

Bathroom, Shower-room & WC [Ensuite]

- The Mousehole and The Loft rooms each contain an en-suite which has a light oak wooden floor. In addition, they each contain a shower cubicle with Power Shower. Toiletries are contained in plunge containers in the shower cubicles and over the sinks. Towels are provided and are kept in the cupboard beneath each of the sinks in these rooms. There is a standard low-flush toilet in each. These are situated beneath frosted glass windows which also have wooden blinds over them.
- The Dray and The Nest have the same facilities apart from the provision of a bath rather than a shower cubicle. Each bath has a Power Shower over it and each has a grip handle on the wall over the bath.
- In addition, we also provide (where required) a step to assist guests into the bath and a seat for guests to use in the shower.

Additional Information

We also have sets of suregrip cutlery for those with grip problems. We also provide a large print menu for breakfast.
